

Module 6

Some basic things to watch for:

- Explosives or flammables should not be stored near potential sources of ignition;
- Corridors, particularly those that are likely to be used in an emergency evacuation, should always remain free of obstructions or impediments, and combustible or flammable materials should not be stored there;
- Exit doors, including the floor area on both sides of the exit door, should be kept clear and accessible at all times; Damage or deterioration of fire suppressors should be reported; Fire alarm systems should appear to be operative.
