

Section 11: The Private Security and Investigative Services Act and Ministry Code of Conduct.

The security industry is overseen by the Private Security and Investigative Services Act of 2005. As a result, security personnel must possess a solid grasp of this legislation to guarantee their compliance with its stipulations and accompanying regulations, which encompass the Code of Conduct and related restrictions. The instructor introduces this legal framework to students by outlining its pertinent components and providing an explanation of the Code of Conduct. This section serves as an orientation for students, acquainting them with their obligations as security guards operating under the umbrella of the PSISA.
