

Section 2: Concept of Utilizing Force

Security personnel might find themselves in circumstances where the application of force becomes necessary. The instructor elucidates the theory underpinning the utilization of force, delves into the constituents of the use of force model, and guides students on sustaining their composure amid potentially tense scenarios. To master the skill of employing defensive equipment and executing various use of force strategies, students must partake in specialized training. The trainer imparts comprehension of the use of force theory by adapting the National Use of Force Model to suit security guards and underscores the importance of Section 25 within the Criminal Code.
