

## Section 1: Introduction to the Security Industry

In this initial section, participants will receive an overview of the core tasks and obligations essential for operating efficiently within the security industry. Students will acquire the skills to interpret and adhere to the

- Legal mandates pertinent to their profession, alongside
- The ability to recognize different job positions and their associated duties.

The instructor will also furnish students with a historical context of the security industry, shedding light on the industry's evolution due to the implementation of the Private Security and Investigative Services Act, 2005 (PSISA).
